NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

For the Nine Months Ended March 31, 2022 and 2021

1. NATURE OF OPERATIONS AND GOING CONCERN

Silver Valley Metals Corp. (the “Company”) was incorporated on July 10, 2003 under the laws of British Columbia. On April 28, 2016, the Company changed its name from Benton Capital Corp. to Alset Energy Corp. On May 3, 2017, the Company further changed its name to Alset Minerals Corp., and retained the same ticker symbol “ION” on the TSX Venture Exchange. On August 28, 2018, the Company further changed its name to OrganiMax Nutrient Corp. and ticker symbol to “KMAX” on the TSX Venture Exchange. On August 3, 2021, the Company further changed its name to Silver Valley Metals Corp. and ticker symbol to “SILV” on the TSX Venture Exchange. The Company is an exploration stage company which engages in the business of acquisition, exploration and development of mineral properties in North America. The Company’s head office is located at Suite 1400 – 1040 West Georgia Street, Vancouver, B.C., V6E 4H8. The Company began trading on the TSX Venture Exchange in April 2005. On February 2, 2022, the Company commenced trading on the OTCQB Venture Market in the United States under the ticker symbol “SVMFF”.

The Company had a net loss of \$616,028 (2021 - \$806,354) during the nine months ended March 31, 2022, a working capital of \$219,755 (June 30, 2021 – \$829,416) and a deficit of \$12,920,922 (June 30, 2021 - \$12,304,894) as at March 31, 2022 which has been funded mainly by the issuance of equity. The accompanying consolidated financial statements have been prepared on the basis that the Company will continue as a going concern, which assumes the realization of assets and the settlement of liabilities in the normal course of business. The appropriateness of the going concern assumption is dependent upon the Company’s ability to generate future profitable operations and/or generate continued financial support in the form of equity financings. These material uncertainties may cast significant doubt regarding the Company’s ability to continue as a going concern. These consolidated financial statements do not reflect any adjustments to the carrying values of assets and liabilities and the reported expenses and the financial position classification that would be necessary if the going concern assumption were not appropriate and such adjustments could be material.

In March 2020, the World Health Organization declared a global pandemic related to the virus known as Covid-19. The expected impacts on global commerce are anticipated to be far reaching. To date there have been significant effects on the world’s equity markets and the movement of people and goods has become restricted. As the Company does not have production activities, the ability to fund ongoing exploration is affected by the availability of financing. Due to market uncertainty, the Company may be restricted in its ability to raise additional funding. The impact of these factors on the Company is not yet determinable; however, they may have a material impact on the Company’s financial position, results of operations and cash flows in future periods. It is not possible to reliably estimate the length and severity of these developments and the impact on the financial results and condition of the Company and its operations in future periods.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements have been prepared in accordance with IAS 34, Interim Financial Reporting of International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (“IASB”) applicable to the preparation of the condensed consolidated interim financial statements. The accounting policies followed in these consolidated financial statements are the same as those applied in the audited annual consolidated financial statements for the Company for the year ended June 30, 2021.

These condensed consolidated interim financial statements of the Company for the nine months ended March 31, 2022 were reviewed, approved and authorized for issue by the Board of Directors on May XX, 2022.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

For the Nine Months Ended March 31, 2022 and 2021

2. BASIS OF PREPARATION (continued)**Basis of Measurement**

These consolidated financial statements have been prepared on an accrual basis, except for cash flow information, and are based on historical costs except for certain financial instruments, which are measured at fair value. The consolidated financial statements are presented in Canadian dollars which is also the functional currency of the Company and its subsidiaries.

Basis of Consolidation

These consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries, Grupo Minero Alset, S.A. de C.V. (“Grupo”) in Mexico and North Idaho Metals Corporation (“North Idaho”) in Delaware, United States. Grupo and North Idaho were incorporated on June 7, 2016 and May 11, 2021, respectively. All inter-company balances and transactions have been eliminated on consolidation.

Use of Accounting Judgments, Estimates and Assumptions

The preparation of the Company’s consolidated financial statements in conformity with IFRS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets, liabilities and contingent liabilities as at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Estimates and assumptions are continuously evaluated and are based on management’s experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates.

The effect of a change in an accounting estimate is recognized prospectively by including it in comprehensive loss in the period of the change, if the change affects that period only, or in the period of the change and future periods, if the change affects both.

The areas which require management to make significant judgments, estimates and assumptions in determining carrying values include, but are not limited to:

- a) **Exploration and Evaluation Expenditures**
The application of the Company’s accounting policy for exploration and evaluation expenditure requires judgment in determining whether it is likely that future economic benefits will flow to the Company, which may be based on assumptions about future events or circumstances. Estimates and assumptions made may change if new information becomes available. Cash-generating units are evaluated at each reporting date to determine whether there are any indications of impairment. The Company considers both internal and external sources of information when making the assessment of whether there are indications of impairment for the Company’s exploration and evaluation assets.
- b) **Going Concern**
The assessment of the Company’s ability to execute its strategy by funding future working capital requirements involves judgment. Management monitors future cash requirements to assess the Company’s ability to meet these future funding requirements. Further information regarding going concern is outlined in Note 1.
- c) **Valuation of Share-based Payments**
The Company uses the Black-Scholes option pricing model for valuation of share-based payments. Option pricing models require the input of subjective assumptions including expected price volatility, interest rate and forfeiture rate. Changes in the input assumptions can materially affect the fair value estimate and the Company’s earnings and equity reserves.

d) Determination of functional currency

The determination of the functional currency for the Company and its subsidiaries was based on management's judgment of the underlying transactions, events and conditions relevant to each entity.

3. SIGNIFICANT ACCOUNTING POLICIES

Adoption of New Pronouncements

There were no new accounting standards, amendments and updates that would either be applicable or have a material effect upon adoption.

Accounting Standards Issued But Not Yet Applied

Certain new standards, interpretations, amendments and improvements to existing standards were issued by the IASB or IFRS Interpretations Committee that are mandatory for fiscal periods beginning on or after January 1, 2021.

Amendments to IAS 1, Classification of Liabilities as Current or Non-current

In January 2020, the IASB issued amendments to paragraphs 69 to 76 of IAS 1 to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. The amendments to IAS 1 are not expected to have a significant impact on the Company's consolidated financial statements.

Property, Plant and Equipment: Proceeds before Intended Use - Amendments to IAS 16

In May 2020, the IASB issued Property, Plant and Equipment - Proceeds before Intended Use, which prohibits entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss. The amendment is effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment. The amendments are not expected to have a material impact on the Company.

(a) Lithium Salars, Mexico

Pursuant to an agreement dated July 28, 2016 and amended on April 7, 2017 with MKG Mining Mexico, S.A. de C. V. (“MKG”), the Company acquired a 100% interest in lithium, potassium, boron soils, and brine salar assets located in Zacatecas and San Luis Potosi, Mexico, which includes four large concessions containing seven top priority salars namely, Caligüey, La Doncella, Colorada, La Salada, Santa Clara, Saldivar and Chapala. As consideration for the properties, the Company agreed to pay the outstanding mining taxes on the four concessions of \$143,870 (paid) and US\$210,000 to MKG. During the year ended June 30, 2017, the Company paid US\$20,000 in cash and issued 700,505 common shares of the Company as payment of the remaining US\$190,000 balance.

The property is subject to a 2% net smelter royalty (“NSR”) of which 1% can be purchased by the Company for US\$250,000. The property is also subject to a 0.25% NSR in favour of the finder mentioned above.

Pursuant to an agreement dated June 15, 2017, the Company entered into an assignment of mining rights and obligations agreement with Hot Spring Mining, S.A. de C.V. (“Hot Spring Mining”) to acquire two concessions located in Zacatecas and San Luis Potosi, Mexico. The Company agreed to issue 444,444 common shares to Hot Spring Mining as consideration for the properties (issued in August 2017). The Company also agreed to pay the outstanding mining taxes on the two concessions totaling \$180,998. The properties are subject to a 2.5% NSR of which the Company has the right to purchase up to 1.5% for \$1,500,000.

In November 2017, the Company completed the staking and filing of additional mineral claims for this property.

5. EXPLORATION AND EVALUATION ASSETS (continued)

(a) Lithium Salars, Mexico (continued)

During the year ended June 30, 2021, the Company has been successful in challenging the Mexican Mining Authority in the Federal Court of Administrative Justice to reduce its land position significantly focusing on its three primary salar assets and in so doing eliminating the past 3 years of back dated taxes charged by the government to the Company on its total land package. The judgment in favour has resulted in the Company's accounts payable having been decreased by \$1,692,462.

Included in exploration and evaluation costs is VAT receivable of \$34,572 (June 30, 2021 - \$31,462) at March 31, 2022.

(b) Ranger-Page, USA

On July 20, 2021, the Company entered into a definitive agreement with Blackhawk Exploration LLC ("Blackhawk") providing the Company with the option to acquire a 100% interest in the past producing Government Gulch Silver project in the Silver Valley, Coeur d'Alene Mining District, Idaho USA (the "Option"). The Company may exercise the Option by paying US\$650,000 and incurring US\$3,000,000 of exploration expenditures on the property to earn a 75% interest in the property as follows:

- Pay a non-refundable deposit of US\$20,000 upon execution of the binding letter of intent (paid)
- Pay US\$230,000 on or before July 20, 2021 (the "Effective Date") (paid)
- Pay US\$150,000 and completing a minimum of US\$600,000 of expenditures on the property on or before the first anniversary of the Effective Date
- Pay US\$250,000 and completing an additional US\$600,000 of expenditures on the property on or before the second anniversary of the Effective Date
- Completing an additional US\$1,200,000 of expenditures on the property on or before the third anniversary of the Effective Date
- Completing an additional US\$600,000 of expenditures on the property on or before the third anniversary of the Effective Date

Upon the Company acquiring a 75% interest in the property, the Company shall have the right to either:

- Cause the parties to form a joint venture with terms consistent with the usual industry practice including a provision for a participant's interest to be converted to a 2% NSR if its interest is diluted to less than a 10% interest. The Company has the right, at any time after the NSR takes effect to purchase one half of the NSR by making a payment of US\$1,000,000 and has the right of first refusal to purchase the remainder of the NSR; or
- Purchase Blackhawk's 25% interest at a price to be negotiated between Blackhawk and the Company with both parties acting diligently and in good faith to arrive at a mutually acceptable purchase price. If the parties do not come to agreement on the purchase price, the Company, at its option, can either pay US\$2,250,000, pay US\$1,000,000 and issue US\$1,250,000 worth of shares of the Company to Blackhawk priced at the 20 day volume weighted average price following the date that the Company elects to purchase Blackhawk's 25% interest or by Blackhawk's request, issue US\$2,250,000 worth of shares of the Company to Blackhawk priced at the 20 day volume weighted average price following the date that the Company elects to purchase Blackhawk's 25% interest.

On November 17, 2021, the Company signed an option agreement to acquire the Page Mine which comprise of 49 patented mining claims totaling 802 hectares located approximately 60 kilometres east of Coeur d'Alene, Idaho. For consideration of the rental and option to acquire 100% of the mineral rights of Page Mine, the Company will make a payment of US\$60,000 in Year 1 and US\$30,000 per annum in Year 2 to Year 10. The Company can purchase 100% of the patented mineral rights for a payment of US\$1,500,000 and all rental payments will be credited towards the option purchase price.

6. LOAN PAYABLE

On April 28, 2020 and August 9, 2021, the Company received a total of \$60,000 under the Canada Emergency Business Account (“CEBA”). The loan is non-interest bearing and no principal repayments are required up to December 31, 2022. If the principal balance of \$40,000 is repaid by December 31, 2022, then the remaining \$20,000 of the principal balance will be forgiven. Any remaining balance after January 1, 2023 will be converted into a 3 year term loan with a fixed interest of 5% per annum, monthly interest-only payments and the outstanding balance must be repaid in full by December 31, 2025.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**(Expressed in Canadian Dollars)****For the Nine Months Ended March 31, 2022 and 2021****7. SHARE CAPITAL (continued)****(b) Stock options (continued)**

The fair value of the stock options granted was calculated using the Black-Scholes Option Pricing Model with the following weighted average assumptions:

	2021	2020
Risk-free interest rate	0.79%	-
Expected dividend yield	0%	-
Expected forfeiture rate	0%	-
Expected stock price volatility	153%	-
Expected life in years	5.00	-

Option pricing models require the input of highly subjective assumptions, particularly as to the expected price volatility of the stock. The expected volatility assumption is based on the historical and implied volatility of the Company's common share price. The risk-free interest rate assumption is based on yield curves on Canadian government zero-coupon bonds with a remaining term equal to the stock options' expected life. The Company uses historical data to estimate option exercise, forfeiture and employee termination within the valuation model. Changes in these assumptions can materially affect the fair value estimate and therefore it is management's view that the existing models do not necessarily provide a single reliable measure of the fair value of the Company's stock option and warrant grants.

9. CAPITAL DISCLOSURES

The Company's objectives when managing capital are as follows:

- To safeguard the Company's ability to continue as a going concern;
- To raise sufficient capital to finance its exploration activities on its mineral exploration properties;
- To raise sufficient capital to meet its general and administrative expenditures.

The Company manages its capital structure and makes adjustments to it based on the general economic conditions, its short-term working capital requirements, and its planned exploration and development program expenditure requirement. The capital structure of the Company is composed of working capital (deficiency) and shareholders' equity. The Company may manage its capital by issuing flow through or common shares, or by obtaining additional financing.

The Company utilizes annual capital and operating expenditure budgets to facilitate the management of its capital requirement. These budgets are approved by management and updated for changes in the budgets underlying assumptions as necessary.

There were no changes in the Company's approach to managing capital during the current year. In order to maintain or adjust the capital structure, the Company considers the following;

- i) incremental investment and acquisition opportunities;
- ii) equity and debt capital available from capital markets;
- iii) equity and debt credit;
- iv) sale of assets;
- vi) limiting the size of the investment program; and
- vi) new share issuances if available on favorable terms.

Except as otherwise disclosed, the Company is not subject to any external financial covenants at March 31, 2022 and June 30, 2021.

NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS**(Expressed in Canadian Dollars)****For the Nine Months Ended March 31, 2022 and 2021****10. FINANCIAL INSTRUMENTS AND FINANCIAL RISK**

IFRS establishes a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

Level 1 - quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 - inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3 - inputs for the asset or liability that are not based on observable market data (unobservable inputs).

Fair Value of Financial Instruments

The Company's financial assets include cash, which is classified as Level 1. The Company's financial liabilities include accounts payable and accrued liabilities and loan payable, which are classified as Level 1.

Assets measured at fair value on a recurring basis were presented on the Company's consolidated statements of financial position as at March 31, 2022 and June 30, 2021 are as follows:

	Fair Value Measurements Using			Total
	Quoted Prices in Active Markets For Identical Instruments (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
	\$	\$	\$	\$
Cash and cash equivalents				
March 31, 2022	418,014	-	-	418,014
June 30, 2021	1,049,240	-	-	1,049,240

Fair value

The fair value of the Company's financial instruments approximates their carrying value as at March 31, 2022 and June 30, 2021 because of the demand nature or short-term maturity of these instruments.

The following table summarizes the carrying value of the Company's financial instruments:

	March 31, 2022	June 30, 2021
	\$	\$
Financial assets		
Fair value through profit and loss (i)	418,014	1,049,240
Amortized cost (ii)	314	-
Financial liabilities		
Amortized cost (iii)	289,758	277,069

- (i) Cash and cash equivalents
- (ii) Amounts receivable, excluding sales taxes receivable
- (iii) Accounts payable and loan payable

10. FINANCIAL INSTRUMENTS AND FINANCIAL RISK (continued)

The Company's financial instruments are exposed to certain risks, including credit risk, interest rate risk, liquidity risk, currency risk and market risk.

(a) Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. Financial instruments that potentially subject the Company to credit risk consist of cash and cash equivalent. The Company's cash and cash equivalent are held through a large Canadian financial institution. Management believes the risk of loss to be remote.

(b) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. In management's opinion, the Company is not exposed to significant interest rate risk.

(c) Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's approach to managing liquidity risk is to ensure that it will have sufficient liquidity to meet liabilities when due. The Company monitors and reviews current and future cash requirements and matches the maturity profile of financial assets and liabilities. This is generally accomplished by ensuring that cash is always available to settle financial liabilities. At March 31, 2022, the Company had cash and cash equivalent on hand of \$418,014 (June 30, 2021 - \$1,049,240) available to settle current liabilities of \$229,758 (June 30, 2021 - \$237,069). Accounts payable and accrued liabilities have contractual maturities of less than 30 days and are subject to normal trade terms. Loans payable have contractual maturities of greater than 12 months.

(d) Currency risk

The Company's functional currency is the Canadian dollar. The Company is primarily exposed to currency fluctuations related to accounts payable and accrued liabilities and payment obligations for exploration and evaluation that are denominated in Mexican Pesos and US dollars. As at March 31, 2022, the Company had net current liabilities of \$121,737 (June 30, 2021 - \$55,676) denominated in Mexican Pesos and net current assets of \$37,764 (June 30, 2021 - net current liabilities of \$13,014) denominated in US dollars which was translated at 0.06278 pesos to \$1 (June 30, 2021 - 0.06228) and 1.2496 US to \$1 (June 30, 2021 - \$1.2394), respectively. The Company does not actively manage this risk.

(e) Market risk

Market risk is the risk of loss that may arise from changes in market factors such as market prices, foreign exchange rates and interest rates. In management's opinion, the Company is not exposed to significant market risk.
